

**HAYWARD COMMUNITY SCHOOL DISTRICT
INTRANET / INTERNET
STUDENT CONSENT AND PARENT CONSENT/DENIAL FORM
363.2 EXHIBIT**

The Hayward Community School District does not have control of information on the Internet. As a result, the information which students and staff have access to may include materials that are illegal, defamatory, inaccurate, or potentially objectionable. While it is the intent of the HCS D to make Internet access available to further its educational goals, students and staff may have the ability to access other materials as well. To ensure an understanding of this, all students and staff who access the Internet via technology provided through the HCS D are annually asked to review the guidelines. In addition, the District's Intranet/Internet Guidelines will be annually reviewed with the student and staff.

The HCS D also recognizes that the parent(s) or guardian(s) of minors are responsible for setting and conveying the standards that the child(ren) should follow. Since students may have access to material which is beyond the District's control, a parent or guardian can sign an annual parental denial requesting that her/his child(ren) not have individual access to the Internet. Teachers will provide alternative activities or resources for assignments, which require individual access of the Internet.

Any Hayward Community School District student has the use of the Internet. After reading the terms and conditions for use of HCS D acceptable use policy and guidelines, please fill out the following contract COMPLETELY and legibly. The signature of a parent or guardian is required for students currently under the age of 18. The student must also sign.
